## Penslar Asthma Remedy

is not offered as, or claimed to be, a cure. No one could compound a cure that would fit many cases—for asthma is due to many different conditions and usually it takes a most expert physician to determine the cause.

But we do claim that it will give you quick and harmless relief and render your breathing easy and normal again. It ought to be worth a good deal to you to know that you have such a remedy at hand. A 50 cent box contains enough for many treatments. The formula is on the package of course. That is the Penslar way of doing things—no secrecy—no exaggerated claims—but on the contrary, you can read on the label just what each remedy contains, and a frank and truthful statement of what may be expected from its use.

## News and Comment.

The Methodists, Presbyterians and Disciples of Christ have united in a big camp meeting at Smith Grove. The millennium seems at last to have arrived when these conflicting religious interests co-operate for the saving of souls and not for denominational aggrandisement.

The latest prohibition high-ball is made of half an orange in a glass of ginger ale. It is even less exhilarating than Bryan's tippie of grape juice.

Lexington seems to be pluming herself on the fact that one of her prominent citizens died while kneeling in prayer. It certainly does beat the old habit there of dying with the boots on.

It is said that President Wilson reads dime novels in order to relax his mind from the cares of State. An enemy no doubt invented this story. Such literature would render him unfit for other than treason, stratagems and spoils.

Congressman Owsley Stanley, after a visit to Kentucky, has returned to Washington with the assurance, he states, of victory in his U. S. Senatorial aspirations. While he is probably too optimistic, there are evidences that he is gaining ground.

A dispatch tells of a snowfall at Holt, Arizona. Oh, wait, wait, wait, the wings of the morn!

The Government has started in to bust the jewelry trade and mayhap we can get our Christmas diamonds at marked down prices.

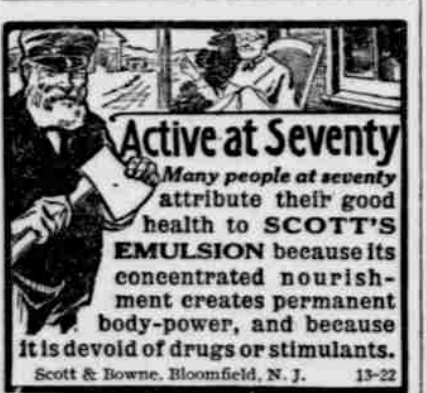

While rushing for a doctor to relieve his child of 16 pennies which it had swallowed, a Chicago man was arrested for exceeding the speed limit with his auto. He was finally released and reached home with the doctor in time to save the baby and the 16 cents.

In New York City Friday 3.31 inches of rain fell in less than ten hours. Why this great waste, when the country is so much in need of it?

The Estill Tribune has rounded out its first year and Publisher J. R. White is to be congratulated on the healthy appearance of his offspring.

Scott county has been voting on prohibition since our memory runneth not to the contrary, the vote usually being set aside. She voted again Saturday and local option won by 410. Let us hope that this time it will stick.

The matter does not concern us, because we never see them, but for the sake of those who are more fortunate we will say that the treasury department has issued notice that a very dangerous

\$30 gold certificate counterfeit is in circulation.

It is announced that Mrs. Emeline Parkhurst, the English suffragette virago, is planning a visit to this country, when she gets out of jail in London. Great Scots! Isn't there some way this country can prevail on England to keep her in durance vile till she gets so old she can do no harm?

The discovery has been made that silk skirts were fashionable in old Roman times and an exchange suggests that that may have been one of the things that made Rome howl. They must have been a very different sort of men from those of this day and time. We don't howl now; just rubber-neck and say nothing.

News comes from Washington that Hon. Robt. Harding, of Danville, may be named as Collector of this district as a compromise candidate. If there is a reason for such contingency, a better selection could not be made. Mr. Harding has been a patient and powerful worker for Democracy, so far without reward.

Fayette county has had another jail delivery, when five got out in broad daylight. This makes 15 that have vamoosed the ranch since Fusionist Ballenger has been in charge. He is the nominee for re-election by that same crowd, but the change, which seems absolutely necessary, will be made in November.

Editor Shelton M. Sautley is what Artemus Ward would have called "an inquisitive kind of a cuss." Listen to this and see if you can find the answer:

"If our good friends, the Danville editors, have found out about the alleged letters of Judge Charles McDowell, of that city, we have so far failed to see any mention of them in their papers. Why this whitewash or soft pedal on the biggest political sensation of the year in Kentucky?"

Whoever put the "Will" in Wilson did a good job. It stuck there, as every day discloses.

Cole Blease, the blackguard Governor of South Carolina, says that in case of war with Mexico he will go to the front. Congress should take notice and govern itself accordingly. At the front Blease might catch a stray bullet and thus end the disgrace that he is heaping upon his State.

According to an authority, there 9,000,000 unmarried women and 8,000,000 unmarried men in the United States. If this is true, some of us have got to be old maids.

A New York youth is to inherit \$30,000 provided he has not indulged in excesses or smoked cigarettes by the time he is 21. Then the money is to be paid to him quarterly on certificate that he has not since indulged. There is likely to be one boy who will not indulge in the dangerous and filthy habit.

One Reason For It.  
Richmond, our neighboring city, is more abundantly supplied with the season's best goods, fruits and vegetables, than Irvine, and the only reason that can be assigned for this state of affairs is that the roads leading into the former city are in good condition and the farmers go there for that reason. The prices here, as some stated, are higher than in Richmond.—Estill Tribune.

## PAID FOR EXPERT ADVICE.

How Tammany Holds Up Honest Men.

A dispatch from New York tells of the testimony of our countyman, which shows how the Tammany crowd forces tribute from everyone it can. The revelation is a startling one:

"Expert advice" as to how to proceed to get the award of contracts on the Cutskill aqueduct work cost Harry Hanger, of the Mason & Hanger Company, of Richmond, \$30,000, according to testimony he gave before Supreme Justice Thompson, of Nyack. Mr. Hanger swore that he paid the \$30,000 to Jas. E. Gaffney, confidant and personal friend of Charles E. Murphy, leader of Tammany. The money, according to Mr. Hanger, was paid in cash, in two \$15,000 installments.

Mr. Hanger's firm obtained two contracts on the aqueduct work. One was for work on the Moodna siphon, the bid being \$3,492,511. The other was for tunnel work at Van Cortlandt Park, the bid in this case being \$3,709,372. The payment of \$30,000 "for advice", Mr. Hanger testified, had been made after his firm had been held up in the award of contract No. 20, the siphon work for which it was the lowest bidder. The next lowest bid was put in by the Bradley Contracting Company, which has strong Tammany affiliations. After this payment had been made and some other matters settled, including the bond for the work, the Richmond company was able to go ahead.

Slightly Exaggerated.  
Some of the Lexington papers make a big item out of a lawn fire at the residence of Mr. C. D. Cheneault, "Kit," in that city. Asked about it, Mr. Cheneault told the writer that the newspaper notice was larger than the strip of grass burned, and that no especial damage was done.

It Must Snow First.  
Judge W. B. Smith, who does not claim to be a weather prophet, but has noted weather conditions along his journey of life, told the Climax yesterday that there will be a snow before there is a general rain to break the long drought. If that is the only alternative, let us pray for snow.
